Firstly—A Good Landing.
The Missouri river at this point is compressed within a narrow space, the channel is remarkably deep on the Delaware side, and washes for a mile above and below, the Kansau shore thus prording at all times a sale and secure

Secondly—Timber in Abundance
The tract of land on which the town is laid
out, is covered with vehicle timber, for building purposes, besides this, there is on the apposite side of the river a large bottom, heavily
timbered with only, ash and walnut.

Thirdly—His Position.

This town has on the Kansan side of the river supporting it, a large districtor the very best lands in the Territory, while on the opposite side of the river there is a large and fertile bottom, teeming with population. This bottom is of itself sufficient to sustain a town of large size. This is the most accessible point from which the Delawara nation of Indians can procure their supplies. Delaware is the nearest and most accessible point at which the country on the Kansan river can do their receiving and forwarding hundress. There are a great humforwarding business. There are a great mum her of towns on the Karsas that will find it t their interest to make this place their chipping point, among them we would name Osawkee, Calboun and others. As there is a good ferry at the point, emigrants traveling to Remain Ter-citory on the great State road from St. Joseph to St. Louis, will find that this is the proper point at which to enter the territory, as by this means they avoid a great deal of unnecessary

Hoalth.

This location is high and commanding, hav-ing as signard water near to generate disease. romantic.

Every inducement will be given to mechanical

to make Delaware the place of their choice. We ask each person to examine the place. The merchant will find on an examination, that PETER W. ABELL. BEN. F. STRINGFELLOW eventd to any town in the Territory; from such persons we cak an examination. In a word cord we ask for Delaware on examination by Sale of Lois.
